

# NGB250 Family

Medical

Industrial

3

LED/AV

# FEATURES AND BENEFITS

Output Power of up to 250W with airflow, only derating to 180W convection cooled across entire input range

4" W x 2" L x 1.5" H Size

Universal 85-264Vac Input Range

Meets Class B Emissions levels

Greater than 10 years Electrolytic Capacitor Life

Safety: IEC/UL/EN62368-1, IEC/ UL/EN60601-1, 3<sup>rd</sup> Edition + Am1

Meets Heavy Industrial/IEC60601-1-2 4th Edition EMC Requirements

Less than 100uA Leakage Current

Class I and Class II Input versions available

3 year warranty

**EMI/EMC COMPLIANCE** 

# OUTPUT

|                                | _  |  |  |  |  |
|--------------------------------|--|--|--|--|--|
| Output Power                   | See model list above   |  |  |  |  |
| Ripple and Noise               | 1% of Vout   |  |  |  |  |
| Load Regulation                | 2%.  |  |  |  |  |
| Line Regulation                | 1%   |  |  |  |  |
| Total Regulation               | 5%   |  |  |  |  |
| Minimum Load                   | Not required   |  |  |  |  |
| Initial Set Point<br>Tolerance | ±1 %   |  |  |  |  |
| Output Adjustability           | 5%   |  |  |  |  |
| Overshoot                      | <3% overshoot at turn-on, <1% overshoot at turn-off, under all conditions  |  |  |  |  |
| Monotonic Wave form            | PSU shall have monotonic wave forms on the main<br>output at start up, shut down and fault (OVP, OCP,<br>OTP, OPP, SCP) triggered shutdown   |  |  |  |  |
| Transient Response             | 500 $\mu$ s response time for return to within 0.5% of final value for any 50% load step over the range of 25% to 100% of rated load, $\Delta i/\Delta t < 0.2A/\mu$ s. Max. voltage deviation is +/-3.5% of final value |  |  |  |  |
| Capacitive Load                | 1000µF   |  |  |  |  |

#### Notes:

Unless otherwise noted, all parameters are specified at nominal input (115VAC/230VAC), 25°C ambient operating temperature, no load to full rated output power, and nominal output voltage.

### PROTECTION

| Overvoltage Protection   | 115% to 155% of nominal output voltage. Requires AC recycle to reset.            |
|--------------------------|--|
| Short Circuit Protection | Short across the output terminals will not cause damage to the unit. Hiccup Mode |
| Thermal Protection       | Will shutdown upon an over-temperature condition, auto-recovery.                 |
| Overload Protection      | 130% - 180% of rated output current value,<br>Hiccup Mode                        |

### ISOLATION

| Insulation Safety<br>Rating               | Input-Ground: 1500VAC, 1 x MOPP<br>Input-Output: 4500VAC, 2 x MOPP<br>Output-Ground: 1500VAC, 1 x MOPP |  |
|---|--|--|

Common Mode Noise: High Freq. (100KHz-20MHz) 20mA pk-pk

Notes:

Performance criteria are based on EN55024. According to the standards, performance criteria are defined as following:

A – Normal performance during and after the test

B – Temporary degradation, self-recoverable C – Temporary degradation, operator intervention required to recover the operation

D – Permanent damage
